

Novaflex Offshore

Mud Hose 600 psi

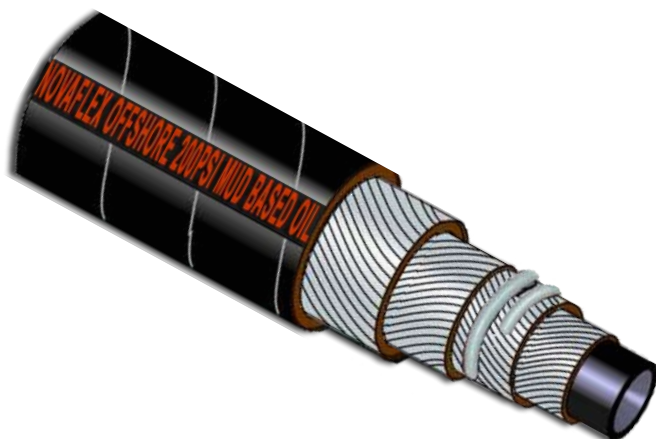

Novaflex Offshore 600 PSI Mud Hose is a bulk transfer hose for use in the offshore oil and gas industry. Used to transfer from shore to ship and ship to rig the drilling fluids, including most fluids used in hydrocarbon drilling operations. Particularly, fluids that contain significant amounts of suspended solids, emulsified water or oil and all types of water-base, oil-base and synthetic-base drilling fluids. Drill-in, completion and workover fluids are sometimes called muds, although a fluid that is essentially free of solids is not strictly considered mud it can be used successfully with this hose.

Specifications

Working Pressure	600psi
Burst Pressure	2400psi
I.D.	4" Standard, 3" and 5" also available
Inside Diameter	4"
Outside Diameter	5.22"
Weight	4" I.D.=5.31lbs/ft
Tube	1/8" neoprene
Reinforcement	8 ply
Cover	1/16" Neoprene
Temperature	-50°F to +180°F
Layline	Red "NOVAFLEX OFFSHORE - 600PSI MUD"
Lengths	50ft, 60ft and 100ft available

Mud Base Oil Hose 200 psi

Novaflex Offshore 200psi Mud Base Oil Hose is a bulk transfer hose for use in the offshore oil and gas industry. Used to transfer from shore to ship and ship to rig of an invert-emulsion mud, or an emulsion whose continuous phase is oil. Most commercial oil muds can be formulated with more or less than 5 vol.% water using essentially the same types of products for which this hose is ideal.

Specifications

Working Pressure	200psi
Burst Pressure	1000psi
I.D.	4" Standard, 3" and 6" also available
Inside diameter	4"
Outside diameter	4.82"
Weight	4" I.D.=3.40lbs/ft
Tube	3/16" Neoprene
Reinforcement	4 Ply with Static Wire
Cover	1/16" Neoprene
Temperature	-50°F to +180°F
Layline	Red "NOVAFLEX OFFSHORE - 200PSI MUD BASED OIL"
Lengths	50ft, 60ft and 100ft available
